

Mercury (II) sulfate

Product Stewardship Summary

Chemical Name:	Mercuric sulfate
Synonyms:	Sulfuric acid, mercury(2+) salt (1:1) Mercury(II) sulfate Mercury bisulfate
CAS Number:	7783-35-9
EC (EINECS) Number:	231-992-5
Revision number:	1-2022

- **Chemical identification and uses:** Mercuric sulfate appear as odorless white granules or crystalline powder. It is denser than water and it separates into an insoluble sulfate with a yellow color and sulfuric acid in the water. It is used in medicine, for gold and silver extraction, and to make other mercury compounds. It is also used as a battery electrolyte and chemical reagent in water treatment and as coloring agent for wine.
- **Potential exposures:** Exposure to it can occur in industrial/manufacturing facilities and/or during use as laboratory chemicals in research settings. The substance can be absorbed into the body by inhalation of its aerosol, through the skin and by ingestion. Good manufacturing and industrial hygiene practices for Mercuric sulfate should be followed to prevent or reduce contact. See the Safety Data Sheet (SDS) for additional information.
- **Human Health hazards:** Fatal if swallowed, in contact with skin or if inhaled. May cause damage to organs through prolonged or repeated. Symptoms of mercury poisoning are headache, weakness of memory, loss of appetite, nausea, shortness of breath and exhaustion. No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP, IARC, or OSHA. This chemical is known to the State of California to cause birth defects or other reproductive harm. One should refer to See the Safety Data Sheet (SDS) for additional information and any protective information.
- **Environmental Health hazards:** It is very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

This product stewardship summary is intended to give general information about the chemical or categories of chemicals addressed. It is not intended to provide an in-depth discussion of all health and safety information. Additional information on the chemical is available through the applicable Material Safety Data Sheet which should be consulted before use of the chemical. The product stewardship summary does not supplant or replace required regulatory and/or legal communication documents. Statements concerning use of our products are made without warranty that any such use is free of patent infringement and are not recommendations to infringe any patent.
